

HEALTH, SAFETY & ENVIRONMENTAL POLICY MISSION STATEMENT

Fine Tubes Ltd (FTL) is committed to the provision of sound health, safety and environmental principles in the development and maintenance of its operations and products for the benefit of all.

HEALTH, SAFETY AND ENVIRONMENTAL POLICY SUPPORTING STATEMENT

- Fine Tubes Limited will strive to prevent work related injury and ill health to workers and provide a safe and healthy workplace. Fine Tubes Limited is committed to consultation with its workforce and continuous improvement in its EHS performance.
- FTL will ensure the adequate provision of resources, information and effective communication which will be widely communicated to all employees and all persons working for or on behalf of the organisation and made freely available to interested parties.
- FTL is committed to preventing damage and protecting the environment through a process of continuous improvement and prevention of pollution, to minimise, and if possible eliminate, environmental impacts and risk to employees' health and welfare. This will ensure FTL remains a responsible member of the community and continues to reduce the direct risk levels in the workplace.
- Our rolling 2 year HSE initiative plan forms the foundation of FTL commitment towards improving the health, safety and environmental well-being of all employees and visitors.
- Statute and Company Policy requirements and assessments shall be reviewed by senior management. The necessary objectives shall be set, systems developed and resources provided to ensure effective and timely implementations of sound practices and mandatory procedure.
- All employees shall be required to follow established Health, Safety and Environmental procedures and will be expected to contribute towards continual improvements in standards in their own areas of responsibility.
